

# Windsock Type 490

Hanging windsock complete with stainless steel ring and three-point suspension.

Available with red and white stripes or in orange.

Pole suggestions or suspension variants are shown on the back. All parts are made of hot-dip galvanized or stainless steel. Wall brackets or a ground sleeve are available for mounting the pole.

Depending on the version, the wind pole can be retrofitted with a lighting for the windsock and/or an obstruction light.
